Welcome

Dear circular economy community,

The [Leadership Groups](#) have started their work to deliver on the priorities of the ECESP [Coordination Group](#). Their activities will give rise to a number of [#EUCircularTalks](#), inviting stakeholders to take part in the discussion and exchange via online workshops, webinars and interviews with high-profile supporters and experts throughout the year.

Feel free to join the debate and share your experience!

News and events

Join the EU Green Week 2021 with your own event

The [EU Green Week](#) is the biggest annual event focusing on European environmental policy. In this context, numerous activities at local, national and European level are organised by partners and associates across Europe to highlight their achievements and contributions towards achieving zero pollution. This year's edition ties in with the European Green Deal and the adoption of the EU Action Plan 'Towards a Zero Pollution Ambition for Air, Water and Soil'. The EU Green Week will take place between **31 May** and **4 June**, with Partner Events taking place between **3 May** and **13 June**. Seize the moment and register your event as EU Green Week Partner Event!

Help update EU rules on industrial emissions!

Have your say on industry's role in supporting the circular economy and improving the EU's environment! Take part in the public consultation on the revision of the [Industrial Emissions Directive](#). The feedback period closes on **23 March**.

#EUCircularTalks

On **19 March**, OVAM, EEB, UNEP International Resource Panel, UNEP Environment and Trade Hub and ECESP are organising a [#EUCircularTalks](#) on trade, resource extraction and circular economy.

Join the Finnish innovation Fund Sitra, EEA and ECESP to discuss how to create a level playing field for [circular businesses](#) and how to enable a transition to a circular economy through incentives that promote circularity on **25 March!**

Knowledge and strategies

A System Change Compass - Implementing the EGD in a Time of Recovery

The European Green Deal provides the impetus to find more resilient, fair and sustainable economic systems. To deliver this ambition and recover from the economic impact of COVID-19, a systemic approach is needed. [The System Change Compass](#) re-examines the driving forces of our socio-economic system, addressing the issues of resource consumption and environmental pressures.

European Circular Cities Declaration

The [European Circular Cities Declaration](#) is designed to help accelerate the transition from a linear to a circular economy in Europe, and thereby create a resource-efficient, low-carbon and socially responsible society.

Good practices

CEnTOUR – helping SMEs in the tourism sector transition towards circular economy

[CEnTOUR - Circular Economy in Tourism](#) is a COSME project aimed at developing innovative ideas to support SMEs in the tourism sector in their transition to a circular economy by fostering an integrated system at local/regional level.

:metabolon - climb a landfill and enjoy a circular experience

The project [:metabolon](#) has created an innovation site with a focus on research, education and circular economy on the Leppe landfill in Lindlar, Germany. Check out the competence centre for circular economy and resource management to learn more about environmental and landfill technologies.
