

**Newsletter of the European Circular Economy Stakeholder Platform
SPECIAL EDITION**

Register now for the European Circular Economy Stakeholder Conference 2022!

On 1 and 2 March 2022, our [Annual Conference](#) will bring together Europe's largest network of stakeholders in the Circular Economy. The focus this year is on the path to a new normal: "sustainable products for sustainable consumption." The French EU Council Presidency plays a key role in advancing the Circular Economy. So we are delighted that the Presidency is joining the European Economic and Social Committee and the European Commission to host this flagship stakeholder conference, bringing together leaders from business, public authorities, NGOs, knowledge communities, and other civil society organisations to advance our transition to a Circular Economy. Call for expression of interest – share your circular ideas at the Annual Conference

Do you have a circular economy project, idea or organisation that you would like to promote and share with the Circular Economy community? Are you looking for partners or stakeholders to team up with or join forces? If so, we encourage you to apply to participate in the virtual space of the **Networking Village** during the European Circular Economy Stakeholder Conference. We are offering you the opportunity to showcase your Circular Economy activity and forge partnerships with circular stakeholders! Interested candidates can express their interest and send their proposal to [CEStakeholderEU](#) by **11 February**.

Are you making the circular economy happen? Can your project inspire others?
[Share](#) your good practice and connect with the circular economy community!

Twitter, LinkedIn... the usual 😊
