

European Circular Economy Stakeholder Platform

#CEStakeholderEU

June 2022

Dear circular economy community,

Heading into our summer break, we would like to share with you that we will be back in September, with more news and new circular events! One of them is the fifth **Circular Week** from **3 to 9 October 2022**, an international series of events and initiatives dedicated to Circular Economy and sustainable development, taking place across Europe. You want to contribute to avoiding gaps in the Circular Economy? Submit your event [here](#) and become a Circular Week partner.

News and events

Analysis and proposals for a new European urban policy and the role of small and medium cities

On **29 June**, the EURE partners are organising a [conference](#) in Brussels on the new territorial models for the management of European urban policy and the role of small and medium-sized cities in proposing a renewed European urban policy adapted to the challenges of our times.

MonGos international conference - Water and Sewage in the Circular Economy Model

The International [MonGOS conference - Water and Sewage in the Circular Economy Model](#), which will be held from **30 June to 1 July** in Cracow, will provide a summary of the MonGOS project "Monitoring of water and sewage management in the context of the implementation of the circular economy assumptions".

Re-think Circular Economy Forum in Naples

The [Re-think Circular Economy Forum](#) in Naples on **30 June** is designed to present macro-trends, possible evolutionary paths and the main projects of the circular economy in Naples and the rest of the Campania region, as well as across Italy and at international level. The Forum was set up to promote the development of the circular economy.

Circular updates from the European Commission

A new call for proposals on "Social innovations for a fair green and digital transition"

Under the Employment and Social Innovation strand of the European Social Fund+, the Commission published a call for proposals to fund projects, including circular and social economy projects, to promote a fair green and digital transition. You can [submit](#) your proposals until **2 August**.

Consultation on Environmental Impact of Waste Management

The [revision of the Waste Framework Directive](#) aims to limit waste generation, increase re-use and increase cost-efficient preparation for re-use and quality recycling, including for waste oils and textiles. The Commission would like to hear your views on waste management and its environmental impact! You can share your feedback until **16 August**.

The European Commission launches new Circular Economy resources for buildings professionals

The European Commission has launched new resources to help buildings professionals to start using Level(s), the EU common language framework for monitoring and assessing the sustainability performance of buildings. Find here their new [eLearning programme and calculator tool](#).

Are you making the circular economy happen? Can your project inspire others?
[Share](#) your good practice and connect with the circular economy community!
